CSPI Partners with Adlumin for Compliance and Security Automation

Jefferson City, MO – May 7, 2021

As the IT landscape continues to evolve and the ever-growing concern with cyber security in financial institutions rises, Computer Service Professionals, Inc. (CSPI) announces a new partnership with the leading compliance and security automation platform in Finance, **Adlumin**. Adlumin is a trusted security and compliance automation platform built to discover threats, malfunctions, and IT operations failures in real-time. In seconds, Adlumin customers can comply with industry regulations using exclusive reporting features.

“Our team is excited to partner with an organization that we feel provides an affordable solution to enhance our customers current network security,” stated Jim Bryan, Senior Technical Service Engineer at CSPI. Adlumin has a different approach to assist customers by helping to comply, detect, prioritize and respond in real-time. Adlumin’s platform improves the overall network health and efficiencies of cyber resources as they work to protect your critical data as well as providing real-time insight into compliance violations and deficiencies through their proprietary technologies and background automation. “We also hope Adlumin’s robust reporting capabilities will help streamline and simplify network audits for our community bank and credit union clients.”

At CSPI, we always seek to partner with a best of breed vendor. Adlumin is certainly not a new face to the financial industry as they are a Preferred Service Provider of **Independent Community Bankers of America** (ICBA), Gold Level Associate Member of the **American Bankers Association** (ABA), and an Associate Business Member of the **Credit Union National Association** (CUNA). Adlumin also recently was a finalist in the Best Solution for Compliance & Risk category for the **2021 Best of FinXTech Awards** powered by Bank Director.

“We look forward to building a strong relationship with Adlumin while providing an enhanced security solution to our valued clients as we work to secure our customers data,” said Bryan.

About Adlumin

Adlumin Inc. is the leading, patented security and compliance automation platform built for corporate organizations that demand commercial bank-grade, innovative cybersecurity solutions

and easy-to-use, comprehensive reporting tools. Our company was founded in 2016 by industry experts from the U.S. Intelligence Community and the world's finest investigators.

The Adlumin team has a passion for technology and solving the most challenging problems through the targeted application of data science and compliance integration. Our mission is to "add luminosity" or visibility to every customer's network process through real-time threat detection, analysis, and response to ensure sensitive data remains secure.
