\$1.4 Billion Northrop Grumman Federal Credit Union Selects Lodestar Technologies to Initiate Data Transformation

Vancouver, BC – February 1, 2021 – [Lodestar Technologies Inc.](#), a data and technology services leader, announced today that it has signed an agreement with [Northrop Grumman Federal Credit Union](#) (\$1.4 billion; 64,600 members; Gardena, CA) to enable the credit union’s data strategy initiative.

Northrop Grumman Federal Credit Union (NGFCU), after a comprehensive search for a single, fully integrated and accurate source of truth for all data, as well as intelligence and analytical capabilities on one platform, chose the Lodestar Enterprise Data Store for its data transformation initiative. Lodestar’s solution is designed to accurately aggregate all the credit union’s strategic data resources, and offer to all levels of staff a comprehensive source of data for reporting and visualization. Planned application will encompass research, reporting and analysis to address risk management, sales and marketing campaigns, and member experience and engagement.

“We are excited about our partnership with NGFCU,” says Steve Mott, VP Sales at Lodestar Technologies “With more than 47 fully-integrated sources from all the key providers within the

financial services eco-system and a proven implementation path, we will have a deep and rich solution in place for NGFCU in mere months.”

“The value of harnessing and harmonizing diverse data is one of the biggest keys to leveraging the power of advanced analytics, machine learning, AI, and data science-led innovation,” said Kevin Yebuah, NGFCU’s director for Data Analytic and Business Intelligence.

About Northrop Grumman Federal Credit Union

As a member-owned financial cooperative, Northrop Grumman Federal Credit Union (NGFCU) exists to provide efficient, convenient, attractively priced financial products and services to our members. NGFCU has become a leader in the credit union movement over the past 75 years. We are proud of the excellent service and competitive products we offer loyal members. Our field of membership primarily consists of Northrop Grumman Corporation and Los Angeles Metro employees. We are committed to nurturing the financial health and well-being of our membership.
