Northern Credit Union Renews Service Agreement with Synergent

(WESTBROOK, ME) - Synergent is pleased to announce that **Northern CU** has renewed its outsourcing agreement with Synergent to provide the Symitar® Episys® core processing system. The five-year agreement also includes card services, check processing, statement processing, mobile deposit capture, and laser check printing.

"Our credit union's primary purpose is crystal clear; we aspire to positively impact the lives of those we serve through engaging conversations, empowerment and personalized solutions," said Dan St. Hilaire, President & CEO at Northern CU. "Synergent has been an essential partner in our pursuit of this quest since 2009 and we look forward to continuing our trusted relationship with them."

Northern CU, headquartered in Watertown, New York, was chartered over 66 years ago as New York Air Brake FCU. In 1982, the credit union became NYAB/Tri-County Teachers FCU, and then Northern FCU in 1996. Today, as Northern CU, it serves more than 35,000 members and holds over \$421 million in assets.

"Northern Credit Union's people-centric culture and commitment to provide the highest level of service, both in person and through technology, aligns well with Synergent's goal of providing credit unions the tools they need to support a strong member experience, wherever their members need them," said Scott Johnsen, Synergent's Senior Vice President of Operations. "Our entire team is pleased to continue working with Northern on the delivery of products, services, and innovative solutions they need to serve their members."

About Symitar

Symitar, a division of Jack Henry & Associates, Inc.®, is the leading provider of integrated computer systems for credit unions of all sizes. Symitar has been selected as the primary technology partner by more than 700 credit unions, serving as a single source for integrated, enterprise-wide automation and as a single point of contact and support. Additional information is available at www.symitar.com.

About Synergent

Founded by credit unions in 1971, Synergent is a managed services provider that offers state-of-the-art and innovative core processing, in-demand payments, technology, and marketing services. As a service-driven and cost-effective host of Symitar's Episys® core processing, Synergent provides credit unions with the products and services they need to succeed. No matter what the product, our clients can count on Synergent to choose it, install it, integrate it, and help credit unions get the most out of it so they can focus on providing the best service experience possible to their members. For more information on Synergent, please visit www.synergentcorp.com or call 800-341-0180.
