## Vizo Financial and TCT Risk Solutions Announce Strategic Partnership to Enhance Risk Management Offerings

**Greensboro, N.C.** (May 6, 2026) – Vizo Financial and TCT Risk Solutions are pleased to announce a new strategic partnership designed to expand and strengthen risk management solutions for credit unions. This partnership brings together Vizo Financial’s trusted role as a cooperative provider of back-office support, consulting and education with TCT Risk Solutions’ specialized risk management tools, which include credit migration, loan and deposit pricing, CECL, and asset liability modeling.

Through this collaboration, Vizo Financial will offer TCT's signature software and advisory capabilities, equipping credit unions with actionable insights to better understand risk, optimize financial performance and make more informed strategic decisions. The partnership aims to help credit unions move beyond reactive risk management toward a more proactive, performance-driven approach that supports long-term stability, resilience and growth.

“We are excited to work with Vizo Financial to bring our risk management expertise to a broader network of credit unions,” said Randy Thompson, CEO of TCT Risk Solutions. “Together, we can provide practical, scalable solutions that help credit unions navigate complex risk challenges while supporting growth and operational excellence.”

“At Vizo Financial, our mission is to deliver meaningful solutions that accelerate our members’ success, and partnering with TCT Risk Solutions enhances our ability to do that with practical, actionable, and affordable risk management tools and educational resources,” said Tim Sustak, SVP/chief treasury officer at Vizo Financial. “TCT’s tools complement our existing services, giving our member credit unions the technology and insights they need to operate efficiently, stay compliant and respond proactively to risk.”

To introduce the partnership, TCT Risk Solutions and Vizo Financial will host a webinar on June 3, 2026, at 2:00 p.m. ET. The webinar will provide a clear understanding of TCT’s suite of services, how these solutions translate complex data into actual insights and how credit unions can leverage them to improve financial performance, strengthen decision making and proactively manage risk.
