## **eDOC Innovations Hosts Successful Advanced Fraud Solutions TrueChecks Webinar Focused on Fraud Prevention for Financial Institutions**

**Middlebury, VT– May 27, 2026**

eDOC Innovations is pleased to announce the success of its recent webinar in partnership with Advanced Fraud Solutions (AFS), highlighting the powerful capabilities of the AFS TrueChecks® fraud prevention platform and its integration opportunities for financial institutions.

The webinar brought together credit union professionals from across the industry to explore today's growing check fraud challenges and learn how financial institutions can strengthen their fraud mitigation strategies through automation, real-time verification, and seamless workflow integration.

During the session, attendees received an in-depth look at how AFS TrueChecks® helps institutions identify suspicious checks before losses occur, while also improving operational efficiency and member/customer confidence. The webinar alluded to future integration in the next quarter, including the addition of the Single-sign-on feature from iDOCVault to the AFS solution.

“Fraud prevention continues to be one of the most important topics facing financial institutions today,” said Joseph Lao. “We were excited to partner with Advanced Fraud Solutions to provide valuable education and practical solutions that institutions can implement to minimize risk exposure for themselves and their members.”

The webinar is part of eDOC Innovations' ongoing commitment to delivering educational resources, technology insights, and strategic partnerships that help financial institutions modernize operations while addressing evolving industry challenges.

eDOC Innovations continues to expand its efforts through webinars, product education, integration partnerships, and customer-focused technology solutions designed specifically for credit unions.
