After Extensive Core Review, Long-Time Sharetec Customer Extends Partnership with Sharetec for 10 More Years

LINO LAKES, MN – Sharetec System, one of the fastest growing core systems, *bold technology, caring partner*, is pleased to announce long-time customer, Thrive Credit Union in Muncie, Indiana, has renewed their contract with Sharetec after an extensive core review.

Thrive Credit Union made the decision to review other core systems to ensure they were using the most integrated core system for their credit union. They wanted to achieve high growth and to deliver superior financial products and services to their members. Working with a consultant, Thrive Credit Union wanted to ensure their core evaluation was thorough, fair, and efficient, which included an RFP from other vendors.

Brett Rinker, President and CEO of Thrive Credit Union, comments, “As we evaluated the proposals and viewed the systems, we found that each system had its own strengths and weakness in supporting our operations. We decided to stay with Sharetec for two reasons. The first is level of investment in the last couple of years. Not only the development of V10, but in the staff and processes to support the credit unions using Sharetec. The second is that our team feels V10 will be one of the best cores on the market for our size credit union.”

One of the key areas Sharetec focuses on is the relationship we build with our clients. Our staff, business partners, and clients all play an important role in Sharetec’s continued growth. “Sharetec is proud to deliver an innovative, cost-effective core that enables our clients more opportunity to succeed. We recognize the importance of always improving and providing significant opportunities to our clients. Sharetec’s strategic objectives enable our credit unions to better serve their members as we provide them with high-quality integrations and products. We look forward to our continued partnership with Thrive Credit Union and can’t wait to see what the future holds for them, all our valued customers, and Sharetec in its entirety,” comments Carrie Heck, Account Relationship Manager for Sharetec.
