

PRESS RELEASE

May 2nd, 2023 - FOR IMMEDIATE RELEASE

Sharetec's Remote Signatures Impacts North Community Credit Union with Great Success

LINO LAKES, MN – Today, Sharetec Systems, a leading provider of innovative core processing software, is pleased to announce North Iowa Community Credit Union (NICCU) has great results utilizing Sharetec's Remote Signatures module. Positively impacting the credit union, NICCU shares their results and success of Remote Signatures, and what it has done for the credit union and members.

Alanna Davison, VP of Operations with North Iowa Community Credit Union, shares, "Prior to utilizing Remote Signatures our processes would take much longer. Utilizing Remote Signatures has allowed members to complete forms and even close a loan without having to make a trip to the branch or wait for snail mail. With e-Sign, we were able to electronically send forms to complete and get them back in the same day. We also love that the system notifies us when the document is complete, so you aren't wasting time checking the que."

Sharetec's Remote Signatures offers credit unions and their members a solution that saves time and is convenient for all. Employees have access to all necessary loan documents without leaving their desk. When members can't be there, they can sign their documents electronically from anywhere.

Carrie Heck, Senior Account Executive for Sharetec, comments, "Since the start of COVID-19, and even before, providing members with the option to sign documents remotely is something every credit union should be considering. With the growth of remote work and credit union access outside of traditional "brick and mortar" branches, Remote Signatures provide a way for a credit union to offer the same member experience both in and outside of the office to their members."
