Aurora Advantage, Powered by CSPI, Strengthens Alliances with 6 Credit Union Clients

Jefferson City, MO - May 8, 2024 - Aurora Advantage, Powered by CSPI, a leading innovator in the credit union industry specializing in core banking, digital banking, and document management, celebrates the strengthening of alliances as six forward-thinking credit unions renew their commitment to excellence alongside the Aurora Advantage Core. These renewals come hand in hand with continued integration of the Aurora Product Suite.

Let's talk innovation. With a shared vision for digital transformation and member-centric focus, these credit unions are paving the path forward to streamlined operations with advanced document management capabilities. Brittany Mitchell, Collections Manager at Employee Resources Credit Union, shared her excitement. "We recently implemented document imaging for our back-office personnel. It has eliminated the need for paper files and storage, streamlined our document workflows, removed manual tracking through spreadsheets, and provides us automated report distribution. We are embracing a new era of operational excellence," stated Ms. Mitchell.

But that's not all – several of these credit unions are elevating the member experience to new heights with enriched online and mobile banking features. Convenience meets sophistication as members gain access to a suite of tools designed to empower their financial journey. From intuitive interfaces to seamless transactions, the future of banking is here, and it's brighter than ever before.

"We are thrilled to continue our journey alongside our valued credit union partners," said Brad Epple, President, and CEO of CSPI. "Together, we are not just embracing change; we are driving it. With these exciting new integrations, we are poised to deliver even greater value to our partners and their members."

About Aurora Advantage, Powered by CSPI

As a valued software and service provider leading the FinTech industry for over 36 years, CSPI continues to focus on the needs of today's progressive credit unions to meet the growing demands of account holders by providing core solutions, digital banking, document management, item processing and managed services.

Our dedicated team strives to enhance the user experience, deliver innovative solutions, significantly increase productivity, and provide exceptional service that exceeds your expectations. We believe if our customer succeeds, we succeed. <https://auroradigitalbanking.com>
