## **eDOC Innovations Grows with Fourteen New Clients in Q1**

### **MIDDLEBURY, VT– January 8, 2025**

eDOC Innovations is pleased to announce the addition of 14 new clients in the first quarter of fiscal 2025. These new partnerships reflect the growing importance of digital solutions in streamlining operations and enhancing member services for financial institutions.

Among the new clients, Illiana Financial Credit Union stands out for adopting eDOC's in-house imaging solution. This comprehensive solution enables Illiana to streamline document management and improve service efficiency. The adoption underscores their commitment to secure, modern technology designed to meet member needs.

The 11 organizations implementing eDOCSignature are leveraging its secure e-signature solution to enhance document workflows and reduce processing times. Meanwhile, three institutions adopting Remote Deposit Capture (RDC) are optimizing deposit processes by offering the services through the convenience of the mobile banking app.

"We're seeing more credit unions and financial institutions prioritize digital transformation, and it's rewarding to be part of that journey," said Joseph Lao, Vice President Sales and Marketing. "Our role is to provide the tools and support they need to transition smoothly while maintaining the high standards their members expect."

As digital-first strategies continue to become the norm, eDOC Innovations remains committed to helping organizations embrace new technologies with confidence. By focusing on practical, user-friendly solutions, the company empowers clients to maximize the value of their digital investments.

### **About eDOC Innovations, Inc.**

eDOC Innovations is the nationwide leader in mobile enterprise digital transaction management and e-commerce software for credit unions. For over 30 years, eDOC Innovations has been designing solutions to reduce overhead, increase operational efficiency, and provide convenience to members. eDOC Innovations' products include solutions for remote mobile and in-branch closings, mobile e-signature processing, digital asset lifecycle management, intelligent and interactive form automation, mobile remote deposit capture, electronic statements, and more.
