CSPI Kicks Off 2025 with Strong Momentum - Several Core Renewals, New Digital Banking and Document Management Agreement Contracts Secured in Q1

Jefferson City, MO — CSPI, a trusted fintech partner to credit unions nationwide, announced today the successful renewal of several core processing agreements in the first quarter of 2025. In addition, CSPI secured new contracts for its Aurora Advantage Digital Banking suite and its comprehensive document imaging and tracking solution, signaling continued confidence in the company's commitment to delivering reliable, integrated solutions and exceptional client support.

"We are honored that so many of our long-time clients continue to place their trust in CSPI," said Kurt Luebbering, Chief of Operations of CSPI. "These renewals reflect the strength of our partnerships and our ongoing investment in innovation, security, and service that helps credit unions thrive in today's evolving digital landscape."

Q1 2025 Highlights:

- **Core Renewals** reaffirming long-term partnerships with credit unions
- **New Online & Mobile Banking Agreements** featuring CSPI's redesigned Aurora Advantage [Digital Banking](#) platform
- **New Document Management Contracts** extending digital transformation efforts with secure, streamlined imaging and workflow solutions

CSPI's open architecture ecosystem and customer-first approach continue to differentiate its core and digital offerings, enabling seamless integration and future-ready growth for financial institutions.

"As our customers' needs evolve, so does our technology," added Brian Dougherty, Senior Project Manager at CSPI.

"We're proud to support their digital transformation journey and look forward to what's ahead in 2025."

About CSPI

For over 35 years, CSPI has partnered with progressive credit unions to deliver technology solutions that simplify operations, unify workflows, and multiply value. With an open, core-agnostic platform and unmatched support, CSPI empowers financial institutions to deliver secure, modern banking experiences across every digital channel.
